

# Make a Humphrey greetings card!

What's better than getting a card from a friend?  
**Getting a Humphrey card!**

**Here's how to make one...**

## You will need:

- **Some thick card**
- **Round-ended scissors**
- **Glue**
- **Coloured pens**

## How to make it:

1. Cut out the pictures and messages you want to use. This can be tricky so **please ask a grown-up to help.**
2. Fold your card in half and arrange the pictures on the front.
3. When you're happy with your design, glue down the pieces onto the card.
4. You might want to add a personal message inside using coloured felt pens.
